

# Alentra Agent™

---

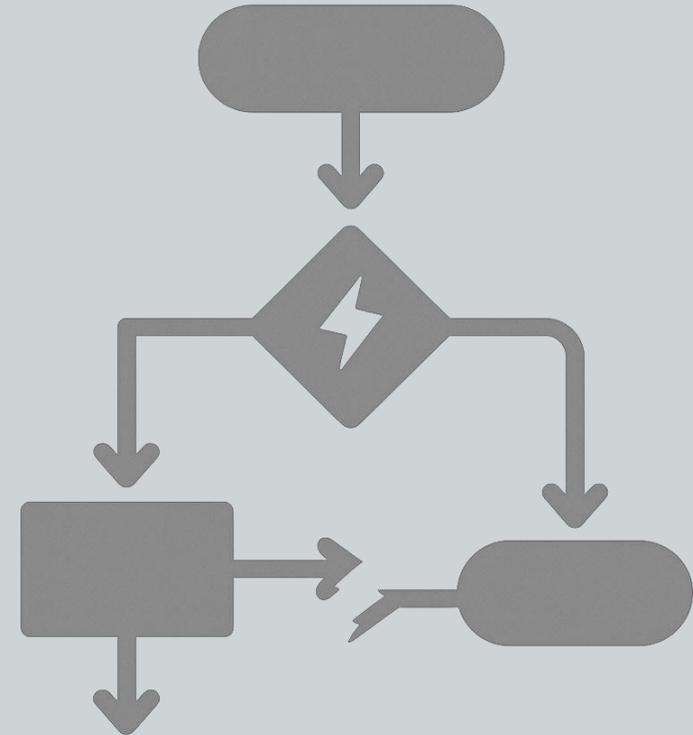

The Execution Layer of the Sponsor-Side Operating System™

# Sponsors Don't Need More Advice — They Need Execution Support

## Leadership clarity is not the same as step-by-step execution

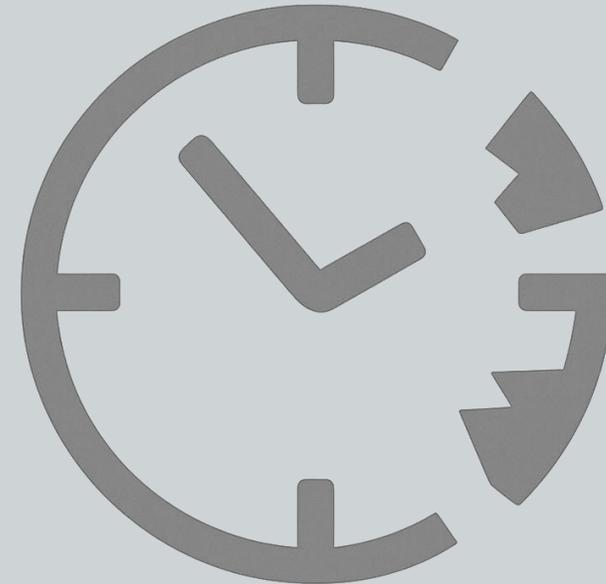

- Meetings don't scale
- Advisors can't be present at every moment
- Deliverables stall without guidance
- Readiness checks get skipped
- Decisions lose structure under pressure

# Transformations Fail in the Gaps Between Meetings

## The work moves faster than human availability

- Sponsors must act in real time
- Vendors push their own priorities
- Evidence is scattered
- Timing becomes reactive
- Drift accumulates silently

# What the Alentra Agent™ Does

**Turns Compass logic and Bearings guidance into step-by-step execution**

- Structured workflows
- Readiness checks
- Evidence prompts
- Sequenced actions
- Context-aware support

## Sponsor-Side Operating System™

Enterprise Transformation Compass™

Digital Consulting System™

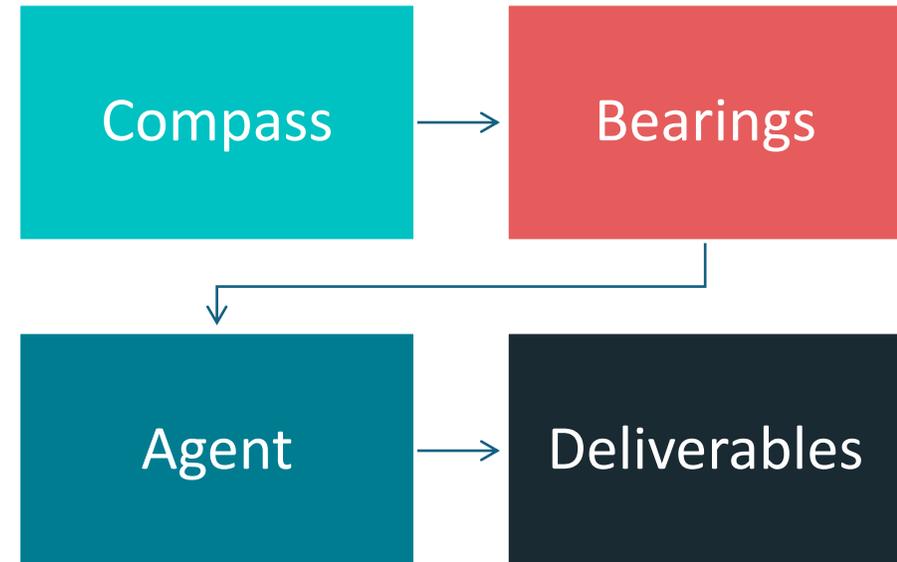

Compass Bearings™

Alentra Agent™

# The Agent Operationalizes the SSOS

**From leadership logic → to guidance → to execution**

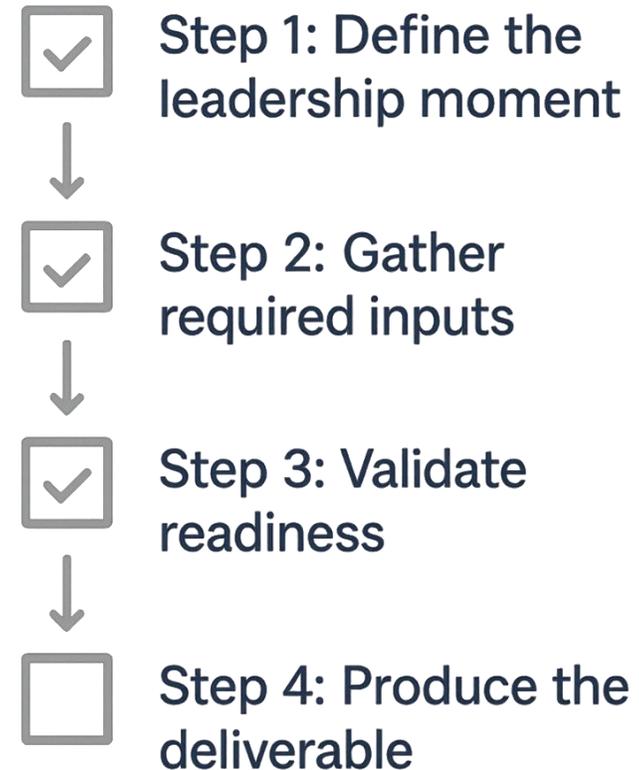

- Compass defines what must happen
- Bearings clarify how to think
- Agent guides what to do next

# Step-By-Step, Sponsor-Grade Execution

**No guesswork. No drift. No ambiguity.**

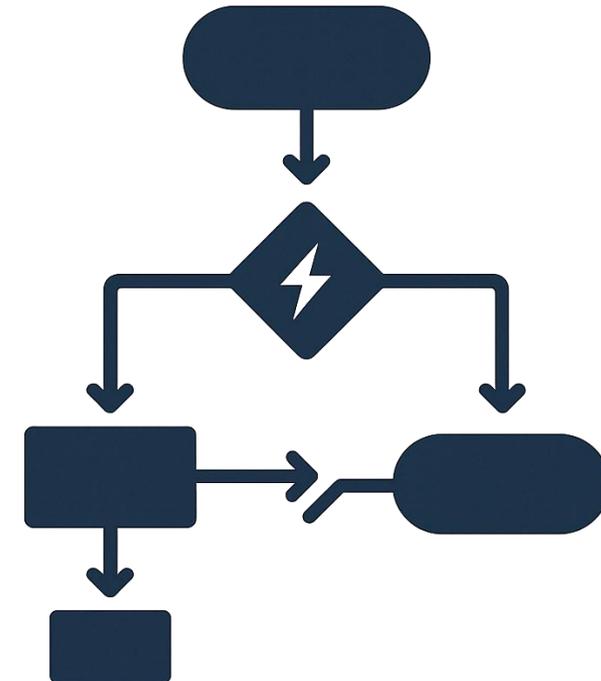

- Clear sequencing
- Defined inputs
- Evidence prompts
- Guardrails and pitfalls
- “What good looks like” criteria
- Effortless to use — every step is guided, sequenced, and validated

# Context-Aware Support

## The Agent adapts to where the Sponsor is in the lifecycle

- Strategy, Selection, and Implementation modes
- Moment-specific prompts
- Dynamic branching
- Evidence-based recommendations

# Grounded Retrieval, Not Generic AI

## Powered by the Gold Library Canon and structured Bearings

- Clean, structured inputs
- Predictable phrasing
- Consistent leadership moves
- Retrieval anchored to Compass logic
- No hallucinations, no improvisation

# Readiness Validation

## The Agent enforces guardrails before work moves forward

- Required inputs
- Evidence checks
- Risk flags
- “Not ready” conditions
- Sponsor-side protection

# Deliverable-Driven Execution

## Every action ties to a structured, sponsor-side deliverable

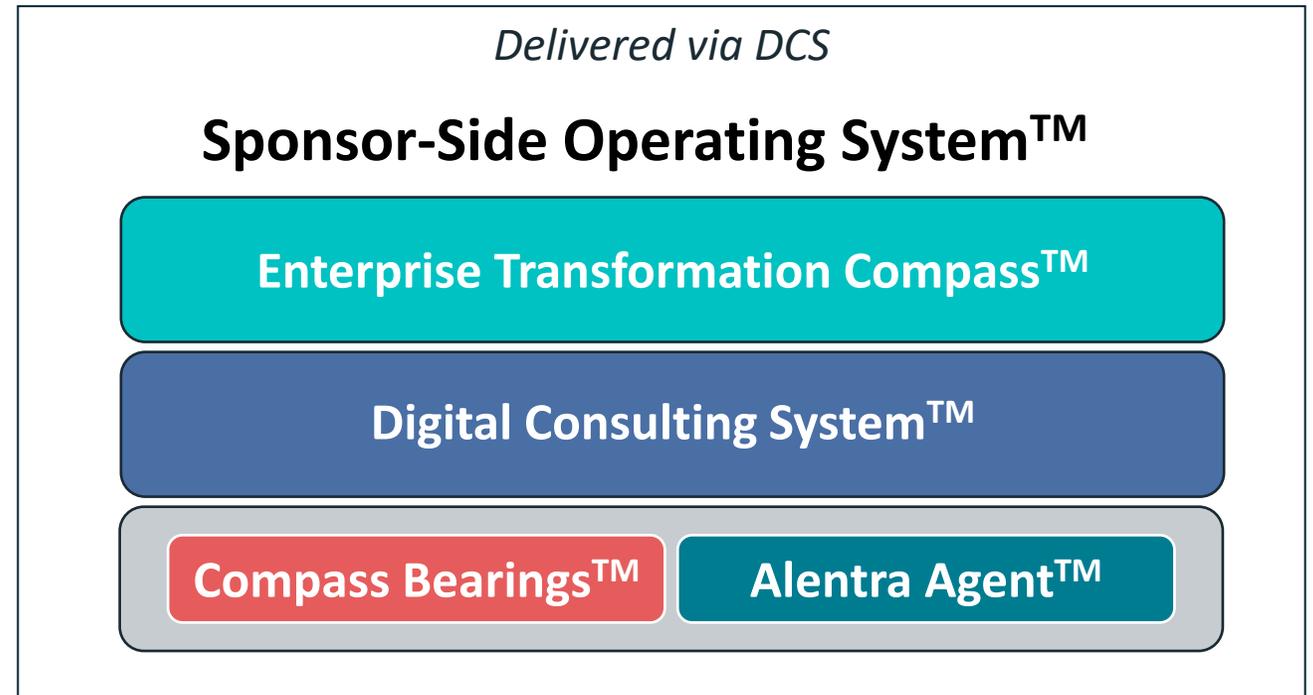

- Strategy deliverables
- Selection deliverables
- Implementation Assurance deliverables
- Evidence-ready outputs
- Board-grade clarity

# The Agent Inside the DCS

## The engine behind DCS Virtual Consulting

- Fixed-fee access
- Self-paced execution
- No hourly billing
- No dependency on advisor availability
- Scalable, repeatable leadership support

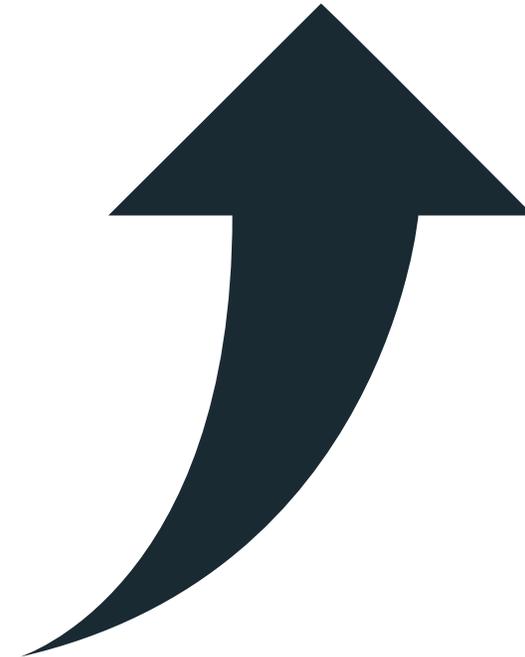

# Why the Agent Is Transformational

---

## A new category of sponsor-side execution support

- Faster than meetings
- Clearer than documentation
- More consistent than advisory
- Structured, evidence-based, and repeatable
- Built for AI-enabled transformation
- Effortless to use — clarity delivered without friction or complexity

# Lead With Precision

Explore how the Alentra Agent™ supports your next transformation

- See the Agent in action
- Understand how it integrates with Compass and Bearings
- Explore DCS Virtual Consulting for access
